

“Say Something if You See Something”

Share what you know with the Multi-agency CSE Team

This process should not be used to report concerns that a child may be at risk of harm and/or immediate danger. The process for reporting concerns about a specific child can be found on the LSCB’s website: <http://lrsb.org.uk/childreport>

This process should be used to share non-urgent information which you believe may be connected to child sexual exploitation (CSE).

All professionals and volunteers in Leicester, Leicestershire and Rutland have a duty to protect children from sexual abuse and exploitation including passing on any non-urgent information.

This information is very important and will help the Leicester, Leicestershire and Rutland Multi-agency CSE Team build intelligence about child sexual exploitation and enable us to better target the response to prevent and disrupt CSE. The information you share may include:

- Vehicle details including registration numbers, make, model and colour
- Details or descriptions of suspected perpetrators – names, phone numbers, addresses
- Details of unusual or regular callers to a children’s home
- Third party information e.g. rumours or concerns about people or locations

To make it easier for you to pass on this type of information to the Multi-agency CSE Team, Leicestershire Police has created a new information sharing form.

The form can be accessed online <https://leics.police.uk/contact/community-partnership-information>

You can also make an anonymous report through Crimestoppers from this page too.

The form can also be accessed through the LSCBs websites:

<http://www.lcitylscb.org/information-for-practitioners/safeguarding-topics/child-sexual-exploitation-cse-trafficking-missing/>

<http://lrsb.org.uk/cse-information-sharing-form>
